

Service Learning (PACE Program) Student Evaluation

Please give your honest opinions to the following statements. Your responses will have no impact on your grade for the course.

	Strongly Agree	Moderately Agree	Neutral / No Opinion	Moderately Disagree	Strongly Disagree
This course increased my awareness of the larger community beyond SBC.					
I was already actively involved in my community before taking this course.					
The service I did through this course helped clarify concepts and ideas that were discussed in my classes.					
This course helped me to determine whether or not I will pursue this area of study further.					
I feel that I would have learned more from this class if there were more time spent in the classroom instead of doing the service in the community.					
This course helped me to reflect on my life and what I consider to be important.					
This course helped me to critically reflect on my own values and biases.					
This course has made me more interested in doing service in my community.					
The idea of combining service to the community and College course work should be practiced in more classes at SBC.					
I would recommend one of the PACE courses to other students.					
I would recommend my specific service site to other students.
